

SUCCESS STORY: **BRIGHTCOVE®**

1.63x Increased Engagement: How an Enterprise Tech Firm Leveraged 2X's Marketing Operations Capabilities

Before 2X:

Constrained bandwidth to plan, launch, and manage a large volume of personalized campaigns

Underutilized MarTech stack led to poor ad targeting and generic messaging

Limited MOps talent to monitor campaign performance, analyze results, and carry out optimization efforts

“ It would have been physically impossible to hire the volume of resources required to run this level of marketing without 2X. ”

—Theo Hildyard, VP of Demand Generation at Brightcove

How 2X Helped Brightcove:

Full MarTech Stack Utilization

2X devoted six MOps professionals for every step of the process, from strategy development to the execution of marketing campaigns.
